

**MATOC Task Order Solicitation 05-0002-02  
Amendment 0001**

**Support Services for the Office of Naval Research for the Legislative Affairs  
Office**

The purpose of this amendment is to correct the language stated in paragraph 6.1, Evaluation Criteria, of the Solicitation. Paragraph 6.1 of Solicitation 05-0002-02 is hereby deleted in its entirety and replaced with the following.

**6.1 Evaluation Criteria:** A Task Order will be awarded to the responsible offeror whose offer represent the best value to the Government. Best value is the outcome of any acquisition that ensures the Government meets the customer's needs in the most effective, economical, and timely manner. In order to determine which offeror represents the best overall value, offers for individual task orders will be evaluated on the following Technical and Price/Cost Factors:

- (1) Proposed personnel
- (2) Management Plan and Technical Approach
- (3) Past performance on earlier tasks under this and similar contracts

Price/Cost Factors

- (4) Cost

The Government will make the determination of the overall value of each proposal in terms of its potential to best satisfy the needs of the Government, considering both technical and cost factors. The offeror's technical capability (as measured by the technical factors) is equal to that of the cost factor.

In regards to the stated technical factors, factor 1 is of the greatest weight; factors 2 through 3 are equally weighted. Factor 4 is of equal value to all other technical factors. These three technical factors are cumulatively equal to the cost factor.

In evaluating past performance on individual orders, the procedural requirements in FAR 42.15 are not mandatory. Past performance will be based on the Government's subjective evaluation of the Contractor's performance with previous orders, if any, under this contract and similar contracts.
